Subject: M6H1 L300 Equipment loos question

Althea,

I'm not sure who this needs to go to, so you're my lucky guess. A team went out yesterday including a START and a USCG member. The USCG person dropped a handheld GPS unit, supplied by START, in the open water and it was lost. START can replace their unit, but I expect the cost will be billed to us on our contract. What do we, or whomever should, do to document this incident/loss? Please advise.

Thanks,

Derek
